

AUTOMATIC WIDTH TESTER (AWT) FOR DETERMINATION OF CONDOM AND GLOVE WIDTH

Valendor's AWT is accurate, fast and easy to use. There is no need to remove lubricant before testing. The test item is placed on the on the two wings. Press the lever down until stop and the measurement is entered in the template for reporting dimensions on the computer.

Valendor's AWT software (included) produces a test report showing:

- Each individual measurement
- The mean, minimum and maximum values
- The number of non-conforming test items
- A statement whether the sample is accepted or not.
